

Job Description: **Cleanroom Maintenance Technician**

Summary Description:

Plymouth Grating is an innovative optics technology company in the South Shore/Boston area, and is seeking a detail-oriented, self-motivated technician to clean and maintain the company's precision clean-room and other manufacturing facilities. The technician will also be responsible for performing additional facilities maintenance duties according to a schedule and as needed.

Expected Outcomes:

- Cleaning processes carried out with utmost of care and repeatability, and in a timely fashion
- Particle counts maintained below required levels in all clean-room areas
- Facilities maintained according to world-class optical fabrication standards
- Responsible adherence to all procedures, including safety and cleanliness protocols

General Qualifications:

- Detail-oriented disposition
- Excellent manual dexterity and ability to lift objects up to 30 lbs
- Commitment to following direction and established procedures
- Ability to communicate with all staff professionally and clearly, both orally and in writing
- Desire to learn and take on challenging new tasks

Experience and Education:

- Experience in a precision manufacturing environment is desired
- Clean room maintenance experience is highly desired; PGL will train candidates with the right attitude in all necessary technical responsibilities
- Education: minimum of high-school diploma
